

Attachment H

Bid Instructions

Bid Instructions

The following instructions are intended to function as an aid to insure bidders include all relevant submissions and statements required by this IFB. These instructions are for guidance and use by the bidder and do not necessarily fully describe all submission requirements. The bidder is completely responsible for the content of their bid.

Reference	Notes
SF form 33	Fully complete the section marked "Offer". The submission MUST be signed.
Section K	Complete all representations, certifications and other statements as specifically described.
L.2	Bidders are to acknowledge that their proposal includes the latest amendment to the solicitation. Amendments will be posted to the EPA website with no additional notification.
L.11	Bidders must locate fill material sufficient to accomplish the work described in the IFB and certify that the material meets or exceeds the requirements of the Project Specification. Note also that a written, notarized certification is required from the landowner for each proposed off-site soil borrow source.
L.13	Offers must notify the EPA of any existing or potential conflict of interest. Should a conflict of interest exist or potentially exist, prospective bidders should describe how the conflict or potential conflict could be mitigated.
Bid Sheet	Complete the Bid Sheet provided at Attachment A.
